

## Library Energy Conservation Benchmarks

|                                                                                       |    |
|---------------------------------------------------------------------------------------|----|
| Table of Contents                                                                     |    |
| List of Tables                                                                        | 3  |
| SURVEY PARTICIPANTS .....                                                             | 12 |
| SUMMARY OF MAIN FINDINGS .....                                                        | 13 |
| Overall Spending on Electricity.....                                                  | 13 |
| Spending on Oil or Gas Heating .....                                                  | 13 |
| Library Water Bill.....                                                               | 13 |
| Trend in Prices for Electricity.....                                                  | 13 |
| Use of Wattage Measuring Devices.....                                                 | 13 |
| Refurbishing Windows .....                                                            | 14 |
| Plans for the Introduction of Atriums .....                                           | 14 |
| Use of Motion Sensors.....                                                            | 14 |
| Plans to Better Seal Windows.....                                                     | 14 |
| Use of High Energy Efficiency Light Bulbs.....                                        | 14 |
| Mean Indoor Temperature Maintained in the Library .....                               | 15 |
| Measures Taken to Control Air Conditioning Costs.....                                 | 15 |
| Altering or Replacing Wall Insulation .....                                           | 15 |
| Altering or Replacing Furnace or Boiler Insulation .....                              | 15 |
| Bicycle Commuting .....                                                               | 15 |
| Reducing the Energy Consumption of Vending Machines.....                              | 16 |
| Use of LCD Monitors .....                                                             | 16 |
| Policies on Shutting Down Computers When the Library is Closed to the Public.....     | 16 |
| Use of Geothermal Energy.....                                                         | 16 |
| Use of Solar Energy .....                                                             | 16 |
| Library Auditing of Electricity Bills.....                                            | 17 |
| Library Use of Vehicles .....                                                         | 17 |
| Chapter One: Introduction and Demographic Info .....                                  | 18 |
| Chapter Two: Measuring Energy Use.....                                                | 20 |
| Chapter Three: Windows, Atriums, and Natural Light.....                               | 28 |
| Chapter Four: Lighting .....                                                          | 33 |
| Chapter Five: Library Room Temperatures .....                                         | 37 |
| Chapter Six: Air Conditioning .....                                                   | 42 |
| Chapter Seven: Insulation and Carpeting .....                                         | 44 |
| Chapter Eight: General Conservation Measures.....                                     | 48 |
| Chapter Nine: Computers and Other Appliances.....                                     | 52 |
| Chapter Ten: Solar and Geothermal Energy .....                                        | 55 |
| Chapter Eleven: Negotiating the Purchase of Electricity and other Forms of Energy ... | 60 |
| Chapter Twelve: The Library's Transportation Assets.....                              | 63 |
| Chapter Thirteen: Advice for Peers .....                                              | 73 |
| OTHER REPORTS FROM PRIMARY RESEARCH GROUP INC.....                                    | 75 |

# Library Energy Conservation Benchmarks

## List of Tables

|             |                                                                                                                                                                       |    |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Table 1.1:  | Sample Breakdown: Public Libraries and College Libraries.....                                                                                                         | 18 |
| Table 1.2:  | Total Library Budget Range (\$) for Libraries in the Sample (In US\$) ..                                                                                              | 18 |
| Table 1.3:  | Total Desktop Number of Computers for Patron Use for the Libraries in the Sample                                                                                      | 18 |
| Table 1.4:  | Mean, Median, Minimum and Maximum Total Annual Operating Budget for the Libraries in the Sample (US\$) .....                                                          | 18 |
| Table 1.5:  | Mean, Median, Minimum and Maximum Total Annual Operating Budget for the Library or Library System, Broken Out by Public Libraries and College Libraries .....         | 18 |
| Table 1.6:  | Mean, Median, Minimum and Maximum Total Annual Operating Budget for the Library or Library System, Broken Out by Total Budget Range (\$).....                         | 18 |
| Table 1.7:  | Mean, Median, Minimum and Maximum Total Annual Operating Budget for the Library or Library System, Broken Out by Total Desktop Number of Computers for Patron Use     | 19 |
| Table 1.8:  | Mean, Median, Minimum and Maximum Number of Separate Library Buildings Included in the Library System.....                                                            | 19 |
| Table 1.9:  | Mean, Median, Minimum and Maximum Number of Separate Library Buildings Included in the Library System, Broken Out by Public Libraries and College Libraries           | 19 |
| Table 1.10: | Mean, Median, Minimum and Maximum Number of Separate Library Buildings Included in the Library System, Broken Out by Total Budget Range (\$) .....                    | 19 |
| Table 1.11: | Mean, Median, Minimum and Maximum Number of Separate Library Buildings Included in the Library System, Broken Out by Total Desktop Number of Computers for Patron Use | 19 |
| Table 3.1:  | Libraries that Plan to Replace Single Panel Windows With Double Panel within the Next Three Years .....                                                               | 28 |
| Table 3.2:  | Libraries that Plan to Replace Single Panel Windows With Double Panel within the Next Three Years, Broken Out by Public Libraries and College Libraries .....         | 28 |
| Table 3.3:  | Libraries that Plan to Replace Single Panel Windows With Double Panel within the Next Three Years, Broken Out by Total Budget Range (\$).....                         | 28 |
| Table 3.4:  | Libraries that Plan to Replace Single Panel Windows With Double Panel within the Next Three Years, Broken Out by Total Desktop Number of Computers for Patron Use     | 28 |
| Table 3.5:  | Libraries that Plan to Widen or Broaden Windows within the Next Three Years                                                                                           | 28 |
| Table 3.6:  | Libraries that Plan to Widen or Broaden Windows within the Next Three Years, Broken Out by Public Libraries and College Libraries .....                               | 28 |
| Table 3.7:  | Libraries that Plan to Widen or Broaden Windows within the Next Three Years, Broken Out by Total Budget Range (\$).....                                               | 29 |
| Table 3.8:  | Libraries that Plan to Widen or Broaden Windows within the Next Three Years, Broken Out by Total Desktop Number of Computers for Patron Use.....                      | 29 |
| Table 3.9:  | Libraries that Plan to Introduce Skylights or Atriums within the Next Three Years                                                                                     | 29 |
| Table 3.10: | Libraries that Plan to Introduce Skylights or Atriums within the Next Three Years, Broken Out by Public Libraries and College Libraries .....                         | 29 |
| Table 3.11: | Libraries that Plan to Introduce Skylights or Atriums within the Next Three Years, Broken Out by Total Budget Range (\$).....                                         | 29 |

## Library Energy Conservation Benchmarks

|                                                                                                                                                                                                |    |
