FOR IMMEDIATE RELEASE

LAT AND iTEAM ANNOUNCE PARTNERSHIP AND JOINT PRODUCT DEVELOPMENT
Synergies in Technology and Product Development Offer Unique Advantages

SOMERDALE, NJ, March 18, 2010: Library Automation Technologies, Inc. (LAT), a leader in library automation products, is pleased to announce strategic alignment with iTeam Resources, Inc. (iTeam) a respected leader in time and print management and Fee & Fine solutions for libraries. Not only has this cooperation resulted in a number of new ongoing product developments and options, but it has already extended the capabilities of existing LAT products to allow any device to become a print/time/Fee & Fine manager via LAT-Total™ option.

“With LAT-Total™ and continued iTeam integration, we have created an environment where any device, FlashScan or allCIRC can be used to reserve a PC, pay for print and/or take care of fees/fines and chargeable items.” commented Oleg Boyarsky, President and CEO of LAT. “We are further extending our value proposition to libraries in delivering a one-point solution for all of their patron needs.” said Boyarsky.

“We at iTeam resources, Inc. are excited abot the strategic alignment with LAT. We believe there is a synergy between the two companies to develop, produce and promote cutting edge products for library automation technology.”, said Megan Newell, president of iTeam Resources Inc. “We are excited this partnership will allow libraries to offer the latest technology to their patrons.” said Newell.

###

About LAT Inc.

Library Automation Technologies Inc., (LAT) founded in 2001 has installations in hundreds of libraries throughout the United States. LAT’s innovation earned the firm the coveted “#1 Fastest Growing in South Jersey, 2005” by the Philadelphia Business Journal, as well as a “Finalist in the Family Business of the Year, 2006” award presented by Farleigh Dickinson College. LAT further continues its growth expanding into automation by delivering media dispensing line of products solely dedicated to library operations.
