# **The Superior Court Law Library of Maricopa County (AZ) Selects Trio of Innovative Products**

Emeryville, CA—The Superior Court Law Library of Maricopa County (AZ) has selected the Millennium ILS, Encore, and Electronic Resource Management. The Court is the fifth-largest trial court in the United States serving a population of over three million residents.

"We are excited to select Innovative Interfaces after an exhaustive selection process," says Jennifer S. Murray, Assistant Library Director. "Millennium is a library system that has a proven track record with legal publications; and Innovative's reputation is stellar. By providing an Encore search, informed by Millennium and the Innovative ERM, our patrons will benefit from vastly improved access to both the print and electronic aspects of our collection."

## **About the Superior Court Law Library**

For over 90 years, the Superior Court Law Library has provided legal research assistance to the bench, the bar, and the public in Maricopa County, one of the fastest growing counties in the country. The Law Library is a public-court law library with a collection of over 150,000 volumes and a broad array of legal databases. These resources aid the Law Library in the fulfillment of its mission to provide open, reliable access to legal information.
